

MEET THE MIGHTY ORGAMITES

They're a team of 9 life-saving organs (led by Captain Marrow) found in every one of us. They're known as the mighty organs because they represent the most-donated parts of the body.

As the only global children's organ donation awareness programme of its kind, the Orgamites consists of an ever-growing

range of fun, educational tools and resources — all aimed at breathing new life and lightness into organ donation.

By empowering more parents, teachers and healthcare practitioners to have more conversations with more children, they aim to create a society in which organ donation is the accepted norm, thereby increasing the

amount of organs donated and increasing the number of subsequent lives saved. That's why we're all superheroes inside!
